

Department: Sales Manager
Reports to: Board

A little bit about us

We're Regital, a programmatic marketing specialist with big ambitions and the talent to bring them to life. If you haven't heard of us, you've almost certainly seen our work.

We use programmatic solutions to grow sales, find new leads and increase brand awareness. We do this for agencies and advertisers that want to use modern marketing to get in front and stay in front.

We've been doing programmatic as long as it's been a thing. And over the last decade we've built an experienced team in ad operations, creative, data science, planning and programmatic trading.

We're proud of our heritage and we're also excited about the journey we're on. And where we're headed. Our four values of 'Be Pioneers' 'Be Experts' 'Be Flexible' and 'Be Sound' are massively important to us and guide us as we make decisions every day.

Our people are the driving force behind everything we do. We're not ones to sit still. We're always looking to add to our portfolio and technology offering. Everything we do is driven by our desire to get there first; of seeing the opportunity, of realising the opportunity. For us. For our clients. Each and every one of us plays a part in pushing the business forward. It's a challenging and fun place to work, and the rewards are there for the taking.

A little bit about the role

We pride ourselves on providing spectacular levels of service and insight to our Clients, therefore rely on our Sales team to manage the entire sales cycle in terms of finding new clients and closing sales, whilst also providing professional after-sales support to enhance the customers' dedication.

What you'll do

As a Sales Manager, you are responsible for finding business opportunities and preserving strong customer relationships within your defined agency patch.

- Manage the entire sales cycle from finding a client to securing the closing of a deal
- Identify and develop business from new and existing clients: Research them to establish a viable opportunity and work proactively to secure a brief
- Create detailed client development plans to facilitate the achievement of company profit goals
- Proactive networking to unearth new sales opportunities and convert to long term partnerships
- Present products to prospective clients
- Host pitches and client meetings, presenting relevant solutions, useful case studies and informative insights
- In collaboration with Account Management, keep frequent contact with your clients to understand their needs

- Provide daily updates to the company tracking system for pipeline and forecasting
